ANNUAL MEETING OF BLAIRMORE ARENA, LIMITED

The annual meeting of the share-
holders and directors of the Blair-
more Arena Co., Limited, took place
in the Elks' hall on Friday night last
and was well attended. The meeting
was presided over by Mr. L. L. Mor-
gan, president, while Mr. Robert Gray
acted in his capacity as secretary.

The minutes of last annual meeting
were adopted as read, and the audi-
tor's report and financial statement for
the year ending September 20th,
1929, was read and discussed and finally
approved.

According to the report, \$962.33
was noted as a deficit for the year's
operation. The total amount of re-
ceipts from hockey was \$1722.65,
from skating \$354.95, while expenses,
in connection with both amounted to
\$1123.57. A donation of \$360 from
the Elks helped to reduce this deficit.

The arena was opened for skating
and curling on November the 18th,
1928, and continued to operate till
March 20th, 1929. The largest at-
tended hockey game was the Interme-
diate-Senior go with High River,
when 655 people paid admission.

Mr. Ringland was appointed ice
maker for this season, salary to be
same as last.

Retiring members of the board of
directors, Messrs. Gillis, Olivier and
Tompkins, were re-elected; and Mr.
P. C. Montalbetti was again appointed
auditor.

A hearty vote of thanks was ac-
corded Mr. Robert Gray for his sec-
retarial work and management of
affairs last season. Coupled with
this vote was a honorarium.

A committee composed of the pres-
ident and secretary and Mr. A. Mor-
gan, was appointed to look after any
necessary repairs to building.

It was announced to the meeting
that the invitation extended to the
Crows' Nest Pass Curling Association
to hold their 1930 bonspiel in
Blairmore had been accepted. Blair-
more will entertain this event some-
time late in January.

ST. ANNE'S BAZAAR WEDNESDAY NEXT

The big event of the season will
take place at the Blairmore Opera
House on Wednesday afternoon and
evening next, in the form of St.
Anne's church annual bazaar.

There will be stalls of novelties,
Christmas goods, art work, fish pond,
etc.

Your tombola ticket will interest
you on this occasion.

In the evening a social programme
will be staged.

Tea and sale from 3 p.m.

ELKS' BIRTHDAY PARTY TUESDAY NEXT

The local lodge of Elks will hold
their fifth birthday party in the
Moose hall on Tuesday night next,
commencing at 8 o'clock.

There will be the usual programme
of cards, supper, dancing, etc., and a
good time is assured.

Real races by fancy horses and
jockeys, at the opera house Wednes-
day next.

ANNUAL MEETING OF BLAIRMORE CURLING CLUB

The annual meeting of the Blair-
more Curling Club will be held at the
Greenhill hotel on Monday next, com-
mencing at 8 p.m.

Business will include the receiv-
ing of statements and reports for the
past season, and election of officers.
At this meeting, the question of
holding a district bonspiel will be
considered. All interested in curling
are urged to be present.

HILLCREST WILL OPERATE OPEN AIR SKATING RINK

At a well attended meeting of skat-
ing and hockey enthusiasts held at
Hillcrest on November the 7th, it was
decided to again set the Hillcrest
rink in operation.

The following officers were elected:
G. Cruikshank, president; R. Smith,
vice-president; H. Westrup, secretary-
treasurer; R. Delisle, J. C. Atkinson,
N. Andreaschuk, E. Dercole and C.
Makin, committee.

The financial standing of the rink
was quoted in a statement submitted.
An ice-maker was appointed and al-
ready is busy and hopes to maintain
a good sheet of ice for hockey and
skating.

Hillcrest has the material for a
good amateur hockey team and has
decided to enter the Crows' Nest Pass
Hockey League. Here's hoping the
Hillcrest boys make a good showing.

BELLEVUE ARENA CO. ELECTS DIRECTORS

At the annual meeting of the share-
holders of the Bellevue Arena Co.,
held at Bellevue on November the 12,
the election of directors took place.

The financial statement for the
year 1928-29 was submitted and ap-
proved and showed matters to be in
a fair financial position.

The prospects of hockey were dis-
cussed at a meeting which followed,
and this discussion was continued at
a general meeting of hockey-enthus-
iasts held on Wednesday night. At
this meeting it was decided that suf-
ficient hockey material was in sight
to warrant the opening and operation
of the arena.

BELLEVUE CURLING CLUB HOLDS ANNUAL MEETING

The sixth annual meeting of the
Bellevue Curling Club was held at the
arena on Friday night last.

The financial statement of the club,
as read by Mr. John Curry, secretary-
treasurer, showed the club to be in
good shape, with a considerable am-
ount to their credit in the bank.

The election of officers resulted as
follows: G. A. Vissac and N. McDon-
ald, honorary presidents; J. F. Smith
and J. Cardie, honorary vice-presi-
dents; William Kerr, president; John
Curry, secretary-treasurer, with
Messrs. McLeod, McEachern and
Berry, ice committee.

It was decided to again provide a
prize for the annual bonspiel to be
held at Blairmore.

Come to the races at the opera
house on Wednesday night next.

'Fresh from the gardens'

This Better Age

The work of a clever cartoonist has for some time past been syndicated to newspapers in America, under the general title "So This Is Progress," wherein he depicts by way of contrast conditions of fifty or more years ago with those of today, as, for example, a party of present-day tourists in a high powered motor car speeding at sixty miles an hour along a highway on which at every vantage point upright billboards invite you to chew this gum, smoke that cigar, or use such and such a soap. In contrast he presents the restfulness and beauty of a tramp through the woods, and by brooks, and rivers rambling through the countryside. The work of this cartoonist leads one to wonder sometimes whether the vaunted progress of this age of frenzied speed, amazing machinery, industrialized mass production, insane speculation is, after all, an advance upon the more leisurely life and enjoyments of the last century.

Such a picture is, however, one-sided, inasmuch as while it points out drawbacks of today, it fails to visualize the great achievements and gains to humanity as a whole, and already there is an awakening public opinion to the need for the preservation of beauty and leisure, and emphasis is laid on the fact that these need not necessarily be lost in order to make advancement in other directions.

Recently another artist presented two companion pictures in a single drawing which he labelled "This Is Progress." One picture was a reproduction of the famous painting "The Doctor," presenting the family physician by the bedside of a dying child in a workman's humble cottage, intently watching the child but apparently powerless to play the ravages of the disease which was slowly taking the life of the child before the eyes of the agonized parents. The companion picture revealed the medical scientist of today at work in his laboratory with his scientific instruments locating and studying those deadly germs and bacilli which, it is now recognized, are the cause of disease. This is war being waged not on disease after it claims its victim, but on the causes of disease. This is progress, and a true, because a more lasting picture of the achievements of the twentieth century.

Despite all the noise, the killing pace, even the ugliness of this mechanized age, with its drawbacks in the merging of the individual artisan into the cogs of a huge industrial machine, and the increasing worship of the almighty dollar, the standard of living is rising higher and higher, and beauty lost in one way is found and multiplied in countless other ways. The average workman in our cities and manufacturing towns is now better paid, better dressed, better housed, better fed, and working shorter hours under more sanitary conditions, has more time for leisure and recreation than in any previous period in the world's history. His children are enjoying advantages in education and opportunities in life he never had in his youth.

The riches of the world's best literature, formerly reserved for the favored few, are available at low cost through the modern printing press for every home. The beauties of the world's finest music are no longer reserved for the rich and the gifted, but are broadcast by radio to be captured in millions of homes, no matter how isolated they may be. In the last century the man with a horse and buggy for pleasure or business belonged to the select; today the motor without a motor car is the exception, not the rule. The telephone is on instant call in the humblest home, even the pioneer settler's sod shack, and the radio is in the mining prospector's cabin.

Even the toil and drudgery of the farm are disappearing with the advent of power machinery and electricity. Soon, even in this last Great West, high power transmission lines will carry electricity into the farm home to bake and cook, chop feed, operate the churn, pump water, and perform numerous other tasks. Even in advance of this, small gasoline engines now do the work on many farms. The telephone, the radio, the motor car and better roads, have already well-nigh annihilated the loneliness of farm life, while educational facilities and medical services are no longer remote.

So, notwithstanding certain drawbacks and losses, the world advances, progress is real and altogether worthwhile, life becomes richer and fuller, mankind rises higher and higher as God and nature designed that he should.

Coins Within a Coin

Quaint Old Silver Pieces Were Made To Fool Highwaymen

I was shown the other day a curious coin which was given to a friend of mine by a collector. It is an Austrian silver piece, about the size of a crown, dated 1614, and it had been in my friend's possession some time before it was discovered that it rattled. Investigation showed that it had been made into a box of which the lid screwed down, and inside were two large pieces of King James I. I am told that such silver pieces were used as a means of carrying a small supply of gold, the idea being that many highwaymen only troubled to take gold from their victims, leaving the more bulky silver behind.

KEEP TRAFFIC MOVING

Pompeii never had traffic problems. In the human system, as in modern cities, the great need is to keep the traffic moving. A slight obstruction may cause very serious consequences. The road to health in the human body--the intestine--is 32 feet long. Think how easy it is for this long tube to become clogged. Think how essential it is to keep it healthy and active. You cannot afford to say "I cannot go because I have a sick headache." You cannot plead indigestion or biliousness or constipation. It simply isn't done. You cannot confess that you are a victim of self poisoning from half digested food lying in the intestine, decaying and generating poisons which beset the eye, blotch the skin and stupify the brain. Don't put off or delay. Try what a little friendly aid will do. CARTER'S LITTLE LIVER PILLS. Red Packages all druggists 25 cents.

Ship Foxes To Sweden

Large Shipment Leaves Western Canada For Swedish Port

One of the largest shipments of silver and black foxes to be exported from Western Canada left Winnipeg recently by Canadian National Express for Halifax, where they will be placed on board the S.S. Kungsholm, which sails for Gothenburg, Sweden. Valued at close to \$370,000, the 297 pedigreed silver and black foxes were crated and carefully packed in two specially-equipped Canadian National express cars for their long journey to the seaboard.

One hundred and twenty-five of the foxes were supplied by the B.C. Crompton ranch at Quilchessa, British Columbia, while the remainder of the shipment are from the All Star Ranch and the Winnipeg Fox Company, both of Winnipeg. Sweden has been one of the largest importers of Canadian-bred silver and black foxes, but in the past the animals have been secured largely in Prince Edward Island and other eastern ranches. During their journey, the foxes will be under the care of M. Holmin and Nils Kimrich, partners of the Swedish importing firm.

On the completion of the new Canadian National Railway hotel at Halifax, passengers will be able to leave their trains, enter the hotel and board a trans-Atlantic steamer without once having to go out from under a roof.

International Amity

Ramsey MacDonald Says That Peace Plan Cannot Fail

The unanimity of the British people for international amity will prevent defeat of the naval disarmament proposals, Premier J. Ramsay MacDonald said at Leicester, England, in receiving the freedom of the city. Referring to his American trip, MacDonald said:

"The journey was made successful, not by anything I did, but what the people of the country did. There are no parties in Britain. It is united, both in prayers and hopes. I feel that such tremendous moral backing cannot possibly be defeated."

"I was on a mission of good will--a mission not only to promote active good will between the United States and Britain, but I hope and pray, a good will that will spread healing and inspiring arms around the earth."

HOUSEHOLD CARES

Fall Heavily On the Woman Who Is Run Down--Thin Blood the Trouble

To the woman who has her household to do and her family to attend to, illness is almost a calamity. Many a woman keeps on with her household duties when she is feeling ready to drop. Her head aches, she may be breathless at the least exertion, she has little relish for food, and always feels tired and nervous. The trouble is poor blood--thin, watery blood, and she badly needs the health help that only Dr. Williams' Pink Pills can give her. The rich, red blood which comes through the use of these pills promptly restores anemic sufferers to good health. Among the thousands who have found new health through the use of this medicine is Mrs. John W. Macdonald, Cardigan, P.E.I., who says: "I can most strongly recommend Dr. Williams' Pink Pills. I was so run down in health that I was unable to do my household work. My husband thought I would never get better, as I had tried different kinds of medicine, with no benefit whatever. I was advised to try Dr. Williams' Pink Pills, which I did, and to my joy I found they were just the thing I needed. I took six boxes of the pills and found myself restored to my old-time good health."

Try Dr. Williams' Pink Pills for anemics, rheumatism, neuritis, nervousness. Take them as a tonic if you are not in the best physical condition and cultivate resistance. They will keep you well and strong. Get a box from the nearest drug store and begin this treatment now, or you can get the pills by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

To Attract Tourists

Yokohama plans an effort to compete with Shanghai for the title of "Paris of the Orient." As a first step in the scheme to attract more tourists to the Japanese port city, Mayor C. Araiuchi proposes to construct a large theatre and cabaret. Other night life attractions would be added. Tourists are now prone to stop in Shanghai, which is famed over the world for the gaiety of its cafes and dance halls, which contribute greatly to the wealth of that city.

Women of the Samoan Islands regard a shiny face as a mark of beauty.

Two hundred years ago, occupants of this center of the Hudson's Bay Company's activities carved their names on the rock walls. Now with the steady increase of visitors to Fort Churchill, the walls at the old Fort are being marked up by new names despite the desire of the Department of the Interior to preserve the ruins as the pioneers of the north left them.

"I imagine the department will put guards over the fort," Mr. Dunning said. "It is perhaps the most interesting relic left to us of early Canadian history, a history that pre-dated that of any city on the prairies or the middle United States. Churchill was the capital of the western half of the continent from the Arctic Sea to Oregon before there was any Selkirk, or Fort Garry, or Regina. The fort stands as a monument to the men who built it as a link with the 18th century in this country and must be preserved."

Railway Earnings Decline

A Decrease in Gross Revenues Shows For August

Canadian railways showed a decrease in gross revenues for August in comparison with 1928 revenues of \$2,815,117, and with an increase in operating expenses of \$101,707, net operating revenues were reduced by \$216,892.

The big reduction in freight traffic was in long haul freight, principally grain. The tons of freight showed an increase of 2.2 per cent, but the shorter haul of 212.9 miles, as against an average of 224.1 miles for August, 1928, reduced the ton miles by 2.9 per cent, and freight revenues were less by \$2,173,551, or 6.8 per cent.

Passenger traffic was lighter than in 1928 by 21.4 per cent, and passenger revenues decreased by \$890,134, or 10.1 per cent, but passenger train miles were reduced only 2.7 per cent, and passenger train car miles were reduced by 6.9 per cent. The average freight haul decreased by 11.2 miles and the average passenger journey decreased by 17 miles.

For the eight months, January-August, gross revenues amounted to \$34,744,618 as against \$33,977,938 in 1928, but net operating revenues were less than in 1928 by \$35,995.

Aeroplane Development

Army Transport Plane Operated Without a Pilot

Development of the gyroscope for use in keeping aeroplanes on their course has progressed to such a point that planes have been operated for long distances without the guiding hand of a pilot at the stick, Wright field army engineers announced at Dayton, Ohio.

The latest and most successful of these experiments was conducted recently, when an army transport plane was flown from Wright field to Detroit carrying five passengers and with no pilot in the cockpit.

Cools and relieves all skin flushed or irritated by weather conditions. Magical in results. A little gentle rubbing and a youthful freshness and daintiness is instantly created. Invaluable for softening the hands and making them flawlessly white. Truly the perfect requisite for the woman who cares.

Will Preserve Old Fort

Changes At Churchill May Necessitate Guard On Fort Prince Of Wales

That it might prove necessary to place a guard over the ruins of the two-century-old Fort Prince of Wales at Churchill, was the statement made by Hon. Charles Dunning, Canadian Minister of Railways, on his return from a trip of inspection over the lines of the recently constructed Hudson Bay Railway to Canada's Arctic port.

Two hundred years ago, occupants of this center of the Hudson's Bay Company's activities carved their names on the rock walls. Now with the steady increase of visitors to Fort Churchill, the walls at the old Fort are being marked up by new names despite the desire of the Department of the Interior to preserve the ruins as the pioneers of the north left them. Ambassador Bridge

Now In Operation

Longest Suspension Bridge In World Between Canada and United States

A great new link between Canada and the United States, the Ambassador Bridge, has come into operation. The ever-growing traffic between the two countries brings into being the longest suspension bridge in the world. The bridge is 1,860 feet long between the main towers. The centre span looms 153 feet above the waters of the Detroit River and at the piers is 135 feet above the water. The total length of the bridge from the terminal in Windsor, Ontario, to the terminal in Detroit is nearly two miles.

The roadway of the bridge is 47 feet wide, providing five lanes of traffic, flanked by an eight-foot sidewalk. These lanes for traffic will be used in either direction as circumstances demand. Main towers of the bridge are 365 feet in height and of steel construction.

The magnitude of the structure is indicated by the quantities of different kinds of material used. Structural steel and cable wire weight approximately 24,000 tons; concrete masonry measures 25,000 cubic feet; cement and gravel totalled 40,000 barrels; the roadway pavement is 60,000 square yards, sidewalk 3,000 square yards. Two million rivets were driven during the progress of construction of the steel portions of the bridge.

Proposals for some direct connection across the Detroit River have been made for nearly fifty years. Work was started on the Canadian end in June, 1927, and the American end in 1928.

Acids in Stomach Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, flatulence, nausea, etc., are due to an excess of hydrochloric acid in the stomach. This acid irritates the stomach lining, causing the disagreeable symptoms which stomach sufferers experience.

Artificial digestants are not needed in cases and may do real harm. They irritate the stomach and the lining, and may cause indigestion. Some of the most common artificial digestants are: (1) Bismuth, (2) Peppermint, (3) Nuxvomine, (4) Opium, (5) Morphine, (6) Cocaine, (7) Camphor, (8) Capsaicin, (9) Capsaicin, (10) Capsaicin, (11) WANT COPY OF PEACE PACT IN EVERY SCHOOL

Winnipeg.—Proposals to have a copy of the Briand-Kellogg peace pact placed in every school in the Dominion, which have been endorsed by Hon. W. L. Mackenzie King, Prime Minister of Canada, are meeting with the approval of educationists in the western provinces and will be considered by provincial governments as soon as formal notification of the project is received.

Under the plan, the federal government would furnish suitable copies of the peace pact for use in the schools, but as school administration is a provincial matter, the provincial governments would have to undertake the placing of the copies in the schools.

"I see no difficulty in carrying out such a plan," stated Hon. R. H. Hoey, Minister of Education for Manitoba, to the Canadian Press. "The government of Manitoba would be glad to co-operate, but it is a matter for the local school boards to decide."

Mr. Hoey said intimation would be sent to the various school boards in the province by his department, of copies being available and he thought most schools would avail themselves of the opportunity to secure a copy of the pact.

The British Columbia government will co-operate in the plan, it has been intimated by the minister of education for the coast province.

Speaking at Ocean Falls, B.C., recently, where he unveiled a copy of the pact in the United Church, Mr. King said he would like to see copies of the pact in all churches as well as schools.

Alberta Town Burned

Property Destroyed By Flames But No Lives Lost

Edmonton.—Fanned by a driving wind which sprang up suddenly, a bush fire swept over and destroyed the thriving little town of Thorhild at an estimated loss of \$100,000. No lives were lost but several citizens suffered burns.

Practically all of the town's 200 inhabitants are homeless, many without clothing and all without food. The business district of Thorhild, 53 miles north of Edmonton on the A. and G. W. line.

Decline In Grain Receipts

Vancouver, Montreal and Quebec Ports Show Great Reduction

Ottawa.—A decline of 112,731,253 bushels of grain is indicated in the receipts at the ports of Vancouver, Montreal and Quebec for the current year ending Nov. 9, compared with the figures for the corresponding period last year. At the same time deliveries from these ports dropped 102,896,627 bushels.

Total receipts at these Canadian ports amounted this year to 155,268,107 bushels, compared with 267,997,410 bushels for the same period of 1928; deliveries amounted to 158,688,840 bushels as against 261,556,467.

Fire Damages Seminary

Loss To Quebec Institution Estimated At Half A Million Dollars

Three Rivers, Que.—Fire swept through the oldest wing of St. Joseph's seminary, destroying that section of the institution which was erected in 1870 and was one of the best known classical institutions in the province. No lives were lost, although several of those caught in the building were taken out with difficulty. The damage was estimated at half a million dollars and the fire was the most destructive to strike this city in the last 20 years. Numerous valuable documents and books were destroyed.

Leaving Diplomatic Service

U.S. Minister To Canada Has Tendered His Resignation

Washington.—William Phillips has resigned as minister to Canada. Mr. Phillips, who is one of the leading United States diplomats, plans to quit the diplomatic service probably next month and settle with his family in New England.

President Hoover accepted the resignation with great reluctance, but decided to induce Mr. Phillips to remain in the public service. However, the minister to Canada explained that he desired to leave office after many years in order to rear his family in the United States.

Proposed Alaskan Highway

Representatives Of United States Confer With Premier King At Victoria

Victoria, B.C.—Appointment of a joint committee consisting of two United States and two Canadian representatives to thoroughly inquire into the proposed highway through British Columbia and the Yukon territory to Alaska, was mooted at a conference held here between Premier Mackenzie King, Premier S. P. Tolan, and United States representatives, including Major Malcolm Elliott, president of the Alaska roads commission, and members of the Seattle Chamber of Commerce.

The need for a thorough investigation of all angles of the project was stressed, and it was felt that owing to the size of the undertaking, an international conference was necessary.

The proposal is for British Columbia to improve the present highway between Vancouver and Hazelton, carrying it on to the Yukon Territory; for the Dominion Government to build it to the Alaskan boundary and the United States to take it from there to Fairbanks and thence to Valdez at sea level. Following the conference, Premier King intimated he would need further information before committing himself on the matter, but said he would give it his full consideration.

A SHORT LINE FROM WINNIPEG TO HUDSON BAY

Ottawa, Ont.—The report of the engineers of the Canadian National Railways who have been surveying a short line from Winnipeg to Hudson Bay will be strongly in favor of the extension of the line now running north between Lakes Winnipeg and Manitoba to take with the Hudson Bay Railway.

This information was received from Montreal recently. The report is not yet completed and will not reach the hands of Hon. C. A. Dunning, Minister of Railways and Canals, for several weeks.

The engineers, it is understood, will not only favor this central line to the north because it would elp hundreds of miles off the present rail distance between Winnipeg and Churchill, but they will point out another vital factor in Winnipeg's northern railway facilities. This factor will be the desirability of providing an air line from Winnipeg to the mining fields of Northern Manitoba.

The central line could be run northward in two ways. It could proceed along the shortest possible line to connect with the Hudson Bay road, which would carry it almost due north, or it could proceed north along the narrow strip of land between Lake Winnipeg and Cedar Lake, finally to make contact with the Hudson Bay Railway about opposite the present branch lines running to Ella Flen and Sherbrook. This would give a short line to the bay and also an air line to the mineral developments.

The cost of extending the central road in either direction would be approximately \$6,000,000. It must be understood in regard to this report that the Federal Government is not committed to build such a line of railway. This inquiry was made because the Manitoba members of parliament requested Mr. Dunning to assist them in this matter. Mr. Dunning agreed on the express condition that it be understood that the government would not be committed to make any expenditures on construction.

Drums for Highlanders

This handsome set of drums has been presented to the 48th Highlanders Regiment, of Toronto, and is the gift of Lieutenant F. M. Ross. The regiment is allied with the world-famous "Gladys Gordons" and upon its flags are inscribed many battle honors, prominent among them being Ypres, Festubert, Somme 1916, Vimy Ridge, Hill 70, Amiens, Canal du Nord, etc. The regiment was organized in 1891.

The drums were made in London, England, and were shipped to this country by the Canadian Pacific Express Company on S.S. Duchess of York.

British Ambassador To Russia Appointed

Sir Edmund Hovey Has Been Transferred From Mexico

London, Eng.—Parliament having approved assumption of diplomatic relations with Russia, the government is losing no time in fully restoring the breach caused in 1927. The appointment of Sir Edmund Hovey as British ambassador to Russia has been announced. A Russian minister will simultaneously come to London.

Sir Edmund had been British ambassador to Mexico for the last four years. He became a diplomatic attaché in 1902, and was appointed to Stockholm in 1904. Shortly afterward he went to Tangier, and in 1906 to Paris.

Later Sir Edmund served in the British diplomatic service in Florida, Cuba, Jamaica, and Persia.

Mexico City.—Official announcement was made here that John Edmund St. John De Bonnaire Monson has been named British ambassador to Mexico, succeeding Sir Edmund Hovey, who will become ambassador to Russia. The new ambassador has been in diplomatic service in Turkey, Japan, France, Persia and Colombia.

Apple Shortage In States

Forty-Five Million Bushels Below Average Is Report

Washington, D.C.—The apple crop in the United States this year is short and the "apple a day" slogan may be suspended temporarily. Compared with that of last year, it is off 23 per cent. and 45,000,000 bushels below the average. Scarcage in the east and worm injury in the west have resulted in an inferior quality. Prices have already advanced and promise to be 25 per cent. above a year ago.

Gives Up Long Search

Seattle.—Refusing to believe that his wife, two little girls and his baby son from whom he was separated in the San Francisco earthquake, were dead, a Vancouver man has just logged his 23-year search here in despair. The story was unfolded when the modern Enchord announced that he had remarried after searching vainly for his wife and children along the Pacific coast.

First To Respond

Geneva.—Great Britain, the first country to answer, has accepted an invitation from the League of Nations to attend a conference for the establishing of an international tariff treaty. The United States and other non-members have been invited to participate.

Advocates Free Trade

With Great Britain

Proposed Resolution To Be Discussed At Coming Session Of Parliament

Ottawa.—Free trade with Great Britain within five years' time is aimed at in a proposed resolution placed on the order paper of the House of Commons by W. R. Pannier, Progressive, Last Mountain. The proposal, which will be discussed at the coming session of parliament, reads: "Whereas, Great Britain has for many years been Canada's best customer for agricultural products, particularly wheat and wheat products; and

"Whereas, the tariffs of other countries are so heavily manipulated detrimentally to the exporting of Canadian products, particularly those of agriculture; and

"Whereas, in international trade it is imperative for any country to buy as much as possible from the country to which she sells, thereby reducing transportation costs to the minimum; and

"Whereas, for the general good of Canada, we deem it advisable to foster trade with the Mother Country to the fullest extent, thus keeping trade within the Empire;

"Therefore, be it resolved, that in the opinion of this House that every handicapped placed on the free operation of the British preference as contained in our tariff schedule, be removed, and, further, that the time has come when the British preference should be progressively increased so as to have free trade with the Mother Country within a period of seven years."

Protests Against Exclusion

Chinese Consul Would Like Discrimination Against Nationals Removed

Brookville, Ont.—A suggestion, that the present exclusion of Chinese immigration to Canada, was humiliating to Chinese national honor and that the act of 1923 should be amended to permit a small quota of Chinese immigrants to enter Canada annually or, else, to contract a gentleman's agreement with China, similar to that now in force in the case of Japan, was made before the Rotary Club by Li Tchou, Chinese consul-general at Ottawa. He expressed a hope that the Dominion government would soon see its way clear to remove the present discrimination against Chinese nationals and predicted that with such restrictions removed, a tremendous impetus would be given the already increasing Canadian export trade with China.

BANKS TO TAKE ACTION TO EASE CREDIT SITUATION

Montreal.—Reassuring indication that in the opinion of the banks of Canada, deflation of stock values on the Canadian markets has reached its logical bottom and that the banks are prepared to step in to the breach in the interests of stabilization, was forthcoming when the leading banks, acting together, announced here that they would accept 15 per cent. of call loans to brokers on stocks selling over \$30, and 10 per share on issues below that price.

In taking this action to ease the credit position for the brokers the banks will be benefiting a large number of marginal clients, for brokers generally feel that this will enable them to reduce their marginal requirements and preclude the necessity in many cases of sending out further calls. The moral effect of this construction action it is anticipated will be even more reassuring confidence than the actual aid rendered, great as this will be.

Toronto.—Action of Canadian banks in reducing the required margin of safety for loans on stocks was interpreted here by leading brokers and stock exchange officials as a step to stem the present tide of pessimistic dump selling and to place the reassuring hand of high finance on the shoulders of the stock investing public.

C. E. Abbe, president of Toronto Stock Exchange, thought it "a helpful gesture by the bankers, likely to fulfill its apparent intention of inspiring confidence among the public and having a general reassuring effect."

It will have no effect, however, local opinion felt, toward possible reduction of margin requirements asked of customers by brokers, and brokers will continue to ask the same margin percentage of clients as before.

ATTITUDE TAKEN AS TO ENTRY OF MENNONITES

Ottawa, Ont.—Widespread misinformation of what has occurred in regard to the proposed movement of 5,000 Mennonites from Russia to Canada, exists in Saskatchewan. Letters received at Ottawa from residents of that province, as well as the language used by various organizations in passing resolutions dealing with the question, indicate that the attitude of the Dominion Government in the matter has not been fully understood.

Hon. Robert Forke said that the Dominion would not put up a cent toward their passage money or their maintenance in Canada after arrival. Nor would he permit them to enter Canada, unless the Mennonites now in Canada guaranteed to keep them and to prevent them becoming public charges. Insofar as passage money is concerned, it is believed that Canadian Mennonites are prepared to put this up. If it is not put up and the Mennonites themselves have not got it, then they simply cannot come to Canada.

Berlin.—The Communist newspaper the "Red Flag" publishes a confidential letter written on Sept. 9 by Dr. Von Dirksen, German ambassador to Russia, to the foreign office at Berlin. It deals with the position of German peasants, mostly Mennonites, who settled in Russia but are now leaving the Soviet in large numbers and trying mostly to get to Canada.

According to the letter there is no prospect of the Soviet government abandoning the policy of its agricultural for the sake of a few hundred thousand German colonists, or for the sake of her relations with Germany. It is officially admitted the letter was stolen and an investigation has been ordered. The hope that came into the hands of the Communists, who are using it, of course, as derogatory to Russia.

Bronze Portrait Of Late Hon. Thomas Johnson To Be Unveiled In Iceland

Winnipeg.—A bronze portrait of the late Hon. Thomas H. Johnson, former attorney-general of Manitoba, will be unveiled at the celebration next June, in Iceland, of the 1,000th anniversary of the "Althingi," the national parliament of that country.

The portrait will be presented by the Manitoba government in recognition of Mr. Johnson's contribution to the progress and development made by the large Icelandic population of the province.

Police Holidays Are Cancelled

Toronto.—All holidays for members of the Toronto police force have been cancelled; beats in all parts of the city shortened and additional men placed on duty as a result of the series of hold-ups which have occurred here in the past week, and the solution of the crime wave is no nearer tonight.

Awarded Nobel Prize

Stockholm.—Professor Owen K. Richardson, of King's College, London, England, has been awarded the Nobel prize in physics. He is a fellow of the Royal Society and is known for his research work in the theory of electrons. The 1929 physics prize was awarded to the Duo De Broglie, of Paris.

Keeping Highways Open

Brandon, Man.—The first start for the season to keep the highways in this district open for travelling was made by the provincial authorities last week when a new snowplow was sent to clean up the road between Souris and Boissevain.

Veteran Journalist Dies

Calgary.—One of the veteran journalists of Western Canada, W. Benar Jones, for several years on the editorial staff of the Calgary Herald, died at his home here after a lengthy illness, at the age of 68. He came to Calgary from England.

DOUKHOBOR LEADERS BRAND
"SONS OF FREEDOM" FANATICS

The following article, which appeared in the Lethbridge Herald a few days ago, tends to strengthen our belief that Doukhobors of the Cowley community are not in sympathy with the lawless actions of those of that sect residing in the neighborhood of Nelson, B.C.

J. P. Shukin and F. Rebin, officials of the Christian Community of Universal Brotherhood, from Brilliant, B.C., were business visitors in Cowley on Wednesday. Both men were quite indignant at the importance attached to the somewhat sensational notice that had been posted once more at the end of the road.

This was originally put up by a very old and erratic man, not a Doukhobor, they claimed, that appeared from sources unknown, over a year ago and lingered about town for several days, expounding his strange beliefs. He took two pieces of the C.P.R. cattle guard, formed a cross with the notice tacked thereon. This affair has been knocked down and set up several times, gaining but very little attention in the community.

When asked who the "Sons of Freedom" really are, Mr. Shukin replied that they are a group of men and women who have broken away from the Doukhobor community and urged on by several fanatics, who he declares are not Russian but English and French, are like so many sheep following a leader. He thinks that the instigators of this movement are just a few radicals that are having great fun by using these simple folks as their dupes to cause trouble in the country.

Mr. Rebin says that it certainly is not true that the Doukhobor company evades school taxes for in the Cowley district, when they pay over \$900 to the school treasury.

COWLEY HAPPENINGS

Miss Peggy Doyle, who had recently returned from a four years' stay in Ireland, had the misfortune while returning from the Cowley school to her home on horse back to receive a broken collar bone and fractures when she was thrown from the horse's back. She was immediately rushed to the Hillcrest hospital, where she is reported as making splendid progress towards recovery.

A surprise party was given in honor of Miss Molly Gunn at her home on Friday night by the village young folk. Among those present were: Misses Jean, Aileen and Josephine Porter, Miss Rosalie Perivault, Miss Bridget Burn, Miss Letha Tustian, Miss Nellie Smith, Mr. Larry Smyth, Mr. Jack Cowin, Mr. Alvin Murphy, Mr. Ronald Morrison, Mr. Sandy McEwen, Mr. Edwin Perivault, Mr. Melvin Black and Emil Godin. An enjoyable time is reported.

A very successful bazaar was staged in the United church, under the auspices of the Ladies' Aid on Saturday afternoon. The weather was ideal, when a good crowd turned out. Around one hundred dollars was added to the church fund as a result.

Mrs. E. S. Easterbrook, after selling her farm property of around 500 acres to a colony of Monks, has come to Calgary, where she intends residing in future. She is accompanied by her son Cyril.

A COAST TO COAST MENU

A menu featuring foods gathered from coast to coast was a unique feature arranged by the federal agricultural department for the opening of the National Winter Fair at Toronto yesterday. There were oysters from Prince Edward Island, fish from Nova Scotia, maple syrup from Quebec, beef from the west, fruit from British Columbia and Ontario—a little something from every province to suit the epicurean tastes of the Canadian.

Mr. Ringland is taking full advantage of the cold spell and hopes to have a splendid sheet of skating ice by the week end. There will be hockey practice on Sunday and skating on Monday. Buy your season tickets now. The curling sheets will also be in readiness for the early part of next week.

BURRILL WINS FROM DRAIN

Speaking of the preliminaries in connection with last week's boxing card at Lethbridge, the Herald has the following to say of the six-round go between Billy Drain, of Vulcan, and Jimmy Burrill, of Lethbridge.

One of the best fights of the evening's card was the six-round preliminary between Billy Drain, of Vulcan, and Jimmy Burrill, of Lethbridge.

These two boys went at it hammer and tongs from the opening bell, and mixed with each other in earnest.

Burrill had the advantage in weight and it was towards the last of the bout that this swung the decision in his favor. Drain made a fine impression on the fans in his initial appearance in the local ring and a return bout here would be welcomed by fight followers.

Drain, weighing 130, gave away seven pounds to Burrill in the next event on the program. Both fighters were in fine shape and their willingness to mix things made them favorites with the crowd at once. Despite the disadvantage in weight, the Calgarian pressed the fight and it was owing to this that he took so many of Burrill's blows. He retaliated with lightning-like swiftness, his left never failing to verify Burrill. The latter, while slowing up the last few rounds, stood his ground and Drain absorbed numerous telling blows. In the final round the men stood toe to toe and tried for a knockout and it was here that Drain showed his stamina. He stood up under severe punching and gave as much as he received. Jud Foley, who refereed this match, awarded the decision to Burrill, which decision was very unpopular with the fans, many of whom claimed that the fight should at least have been a draw.

Mr. Frank Wheatley, president of the Mine Workers' Union of Canada, was in The Pass over the week end.

Tea served from 3 to 6 p.m. at the opera house Wednesday next. Home cooking, fish pond, linen sale, etc.

In spite of the fact that he who hesitates is lost, it's just as well to look before you leap.

Mr. and Mrs. R. B. (Paddy) Wilson, of the South Fork, left Monday morning for Vancouver, where they will in future reside.

Herman Revinsky was at Maple Creek found guilty of the murder of David Katz and was sentenced to hang on February 19th.

FOR SALE, sweet singing Roller Canaries, high class stock, prices reasonable, makes a lovely Christmas gift. Apply box 95 or phone 55.

Mr. C. B. Barrel manager of the Greenhill hotel, was in Edmonton during the week, attending the provincial hotelmen's convention.

Last week we were in error in stating that "The Rosary" was presented under the auspices of the Elks' Lodge, in failing to include the local chapter of the I.O.D.E. as well. While neither were connected with staging of the play, yet the funds of both these organizations will benefit from the production and The Blairmore Players heartily thank them for their co-operation, the Greenhill hotel, Vista Club and others for the loan of furniture, all who contributed to the play's success and the public for their patronage.

The Motorist's Prayer

Teach us to drive through life without skidding into other people's business. Preserve our brake lining, that we may stop before we go too far. Help us to hear the knocks in our motors and close our ears to the clashing of other people's gears. Keep alcohol in our radiators and out of our stomachs. Absolve us from mania of trying to pass the other automobile on a narrow road. Open our eyes to the traffic signs and keep our feet on the brakes.

"Do not keep staring at that lady, she is my wife."
"Oh, I am only rejoicing that she is not mine."

An exchange remarks: "Justice. There is no justice. A trial will convince."

Little Mary: "Why do they keep lions at the central telephone office?"
Teacher: "Why do you ask such a question, Mary?"
Mary: "Well, when I call papa, sometimes the central says, 'The lion's busy!'"

Scotch To The End

Miles: "Well, old Gene MacDonough remained Scotch to the last breath."
Pyles: "What do you mean?"
Miles: "When he felt a heart attack coming on he managed to fall in front of a passing auto, so the insurance company would have to pay his widow double indemnity."—New England Printer.

Very little business was transacted at Monday night's meeting of the town council.

"Sabook."
"Wassanainuivitt?"
"Saddickshunerry, fullinians. Wife's gonna gettapleedock angottagettanainferim."—Typo Graphic.

Pat was arrested for being intoxicated. On being brought before the Judge he was asked by the Court what he was there for.
Pat: "Your Honor, I was arrested for being intoxicated."
Judge: "Pat, where did you buy the liquor?"
Pat: "Your Honor, I did not buy it. A Scotchman gave it to me."
Judge: "Thirty days for perjury."

The Silent Partner

"Does yo' take this woman for thy lawfully wedded wife?" asked the colored parson, glancing at the diminutive, watery-eyed, bowlegged groom, who stood beside two hundred and ten pounds of feminine assurance.
"Ah takes nobthin'," gloomily responded the bridegroom. "Ah's bein' tooked."

Old Mother Hubbard, she went to the cupboard,
And took out her new evening shawl,
Made her cheeks louder with lipstick and powder
And then drove away to the ball.

Editor was Logical

Here's a good advertisement which was taken from an exchange. An editor and a merchant were discussing the virtue of bill-board advertising. The merchant contended that more people read the bill-board than the newspaper. After a lengthy conversation in which neither man would give in the men parted. The next week the merchant came tearing down to the newspaper office wanting to know why the obituary of his wife's mother was not in the paper, especially after he had seen the copy was taken to the newspaper office. "Well," said the editor, "I knew you wanted the obituary read by the people so I took it out and nailed it on the bill-board."—Think it over!—Ex.

Boil it Down.

(Royal Arcanum Bulletin)
If you've got a thought that's happy—
Boil it down.
Make it short and crisp and snappy—
Boil it down.
When your thought its coin has minted,
Down the page your pen has sprinted,
If you want your effort printed—
Boil it down.

Take out every surplus letter—
Boil it down.
Fewer syllables the better—
Boil it down.
Make your meaning plain. Express it
So we'll know—not merely guess it;
Then, friend, ere you address it,
Boil it down.

Cut out all the extra trimmings—
Boil it down.
Skim it well—then skim the skimmings—
Boil it down.
When you're sure 't would be a sin to
Cut another sentence in two,
Send it on, and we'll begin to
Boil it down.

A young couple were married in the Lowe Star State, and in due time were blessed with an heir. Soon after they moved to Twin Falls and later were staggered by the arrival of twins. Once again they moved, this time to Three Lakes and the Lord showered them with triplets. Thereupon, while the father of the incipient regiment stood moaning his fate, a friend sympathized with him by suggesting that he wasn't so bad off after all—he might have moved to the Thousand Islands.

Differences in the price of wheat at Chicago and Winnipeg and retarding of the wheat movement in western Canada is due to the view of Canadian wheat owners that its good quality justifies holding it for higher prices while British and continental buyers believe they can obtain their present requirements from the Argentine and the United States. It is the explanation of this condition given out in a statement recently issued over the signatures of E. W. Beatty, chairman and president of the Canadian Pacific Railway, and Sir Henry Thornton, president of the Canadian National Railway. Until the present impasse between buyer and seller is adjusted there will be a practical stoppage in the movement of grain with consequent serious effects on gross and net earnings of both the rail and water carriers.

Travelling 300 miles north of Edmonton over the waterways branch of the Northern Alberta Railway to Waterways and Fort McMurray, E. W. Beatty, chairman and president of the Canadian Pacific Railway, accompanied by a number of directors of the railway, inspected the salt wells and tar sand deposits of the region. Experts of the Canadian Pacific and Canadian National Railways are at present examining these deposits which Mr. Beatty said he was satisfied would be a great asset to Alberta.

Delegates from the Canadian Chambers of Commerce who have been travelling extensively in the west of Canada, mainly over Canadian Pacific lines, have through their national committee reiterated their stand in favor of a continuance of assisted immigration of selected British settlers of a desirable type to Canada.

Charles Reid, of the Banff Springs Golf Club, won the Prince of Wales trophy, famous and coveted prize of golf, from a field of 427 competitors recently. His score was 141 not his handicap being 17. This is the first time in the history of the competition that the cup has gone to a Banff player. Calgary golfers having taken it to that city on each of the four former competitions.

Canada's reindeer industry takes a big forward step this year with the trek of 3,000 northern animals from Alaska into the Dominion. In November this herd, secured by Canada from the United States herds in Alaska, will begin a trek which will take 18 months and will land the animals in 1931 on the Arctic coast east of the Mackenzie river.

Australians are "dicerally loyal" so far as Empire Trade is concerned, and buy, for example, 98 per cent. of their automobiles from Canadian manufacturers. Sir James Murdoch, member of the Legislative Assembly of New South Wales, told the Vancouver Canada Club recently. Sir James had just returned from a cross-Canada tour by Canadian Pacific lines and was on his way back to Australia.

Settlers in the Peace River country have a definite uniformity of outlook regarding the progress of the country as a whole, said Col. J. S. Dennis, Chief Commissioner of Colonization and Immigration of the Canadian Pacific Railway, who has been inspecting the northern part of Alberta over the Northern Alberta Railway. He was astonished at the readiness of the Board of Trade and individual business men to take a large view even where it meant work temporary hardship locally.

A young man went to the minister and told him, with a very long face, that he had seen a ghost.

"Where and when?" asked the pastor.

"Last night," said the timid man. "I was passing by the church and up against the wall off it, I did, without the shadow of a doubt, behold a spectre."

"In what shape did it appear?" inquired the pastor.

"It appeared in the shape of a donkey," replied the man.

"Go home and hold your tongue about it," rejoined the minister. "You are a very timid man and have been frightened by your own shadow."

Mrs. J. Colosimo, of Hillcrest, sustained slight injuries through being knocked down by a car last week.

PIANO AND VIOLIN RECITAL

One of the biggest high-class attractions of the season was the recital presented at the Orpheum theatre last night by the piano and violin pupils of Miss Madeleine Chardon and Mr. W. H. Moser, respectively.

The theatre was literally crowded with music lovers, not the least conspicuous in the gathering being the parents and relatives of the young artists.

The programme throughout proved a treat and a surprise to all, for every participant performed his or her part in a manner that reflected great credit upon their teachers.

The programme in brief was as follows:

Selections, "The White Queen" and "Hungarian Dance," by the Hillcrest Orchestra, W. H. Moser, conductor.

Trio, by Elaine Ennis, June Smith and Laura Link.

"Dance of the Clowns," by Wilma Wheatcroft.

"Gavotte," by Evan Gushul.

"Swaying Pines," by Marjorie McPhail.

"Pippa's Dance," by Joe Morgan.

"Captain Kidd," by Douglas Moore, of Coleman.

"Gypsy Dance," by Rose Oliver.

"Soldiers' March," by Bella Kroll, of Frank.

"Country Dance," by Arnold Barstelli.

"Twilight," by Jean Upton.

"Prayer," by James Patterson.

"In the Cave," by Isobel Westrup, of Hillcrest.

"In the Blacksmith Shop," by Margaret Murray, of Frank.

"A Fantasy," by Roy Upton.

"Serenade" and "Indian Love Call," by Frank Johnson.

"Hungarian Dance," by Lorna Hales.

"Song of the Drum," by Bill Granger.

"My First Waltz," by Ronald Johnson.

"Playful Kittens," by Marion Oliver.

"Little Johnny Jump Up," by Oliver Westrup, of Hillcrest.

"Light Cavalry," by George Kerr.

"Butterflies Wink Their Primrose Wings," by Beth Murray, of Frank.

"Grandfather's Clock," by Violet Currie, of Coleman.

"Playing Catch," by David Ferguson.

"Bell Boys' Suite," by Clifford Chappell.

"Eskimo Lullaby," by Eleanor Aschacher.

C.P.R. Herd Wins Hundreds of Prizes

Here are some of the 179 first prizes and 73 championships and reserve championships won by the Strathmore Farm herd on the prairie and coast show circuits during the current and last year. The Strathmore show herd of fifteen Holsteins won 160 first prizes at 8 major exhibitions in 1928 and 79 firsts in 1929. The shield at lower left was won by a carload of calves from the Canadian Pacific farm at Chin, Alberta in 1928. The large cup, right, was won at the Calgary spring show for the best-paired Ayrshire Angus heifer. Diploma at right was won by the Holstein bull Strathmore McKimley Fairchild. Wayne, a grand champion in 1928. He is shown above and he went through all western fairs without a defeat from 1927 to date. He was Grand Champion at the three coast fairs and also at Saskatoon. The Canadian Pacific Railway thus owns one of the finest, if not the finest, herd of cattle in Canada. The company has done a great work in improving the breed of cattle throughout the West.

WORLD HAPPENINGS BRIEFLY TOLD

Russia, which led the world in wheat exports, before the war, now does not produce what it consumes.

Winston Churchill, former chancellor of the exchequer, has been elected lord rector of Edinburgh University.

Thos. Mann, widely known German novelist, whose best known work is "The Magic Mountain," has been awarded this year's Nobel prize for literature.

The Austrian government will shortly appoint a consul-general at Ottawa, Hon. P. C. Larkin, Canadian High Commissioner, was informed by the Austrian minister in London, Baron George Frankentstein.

It is reported that a sheep rancher in Nebraska has bought eighteen sections of land at Finsburg, Alberta, along the river, upon which he intends to set a flock of sheep numbering about 20,000 next spring.

Semyon A. Shestakov, chief pilot of the Russian plane "Land of the Soviet," which flew from Moscow to New York, announced the Oskavikhim, Soviet Aviation Society, had refused to endorse his proposal, to fly across the Atlantic ocean on the homeward trip.

Seized and condemned for illegal fishing in Canadian territorial waters on August 2 last, the United States fishing boat "Olympus" has been reserved for the use of the biological board of Canada, and will be stationed at Departure Bay, B.C., it is announced by H. W. Goggin, marshal in the Victoria admiralty district.

The former Kaiser from his exile at Doorn, has instituted a libel suit against the editor of a Berlin newspaper. The newspaper had said that the army was supplied exclusively with Krupp guns, greatly inferior to those of other firms, because the Kaiser was financially interested in the former Krupp works.

Ohio Penitentiary Inmate Patents New Safety Device

An invention by an Ohio penitentiary prisoner may make automobile theft more difficult than it is at present.

Lawton Hilemann, 22, of Akron, serving a sentence of from seven to 15 years for burglary, has filed with a patent attorney an application for a patent on his dual auto control ignition.

When the motor is stopped, it automatically locks the ignition, steering wheel and starting switch. The mechanism can be enclosed in a box six inches square and four inches high and mounted beneath the dash board.

Started In Small Way

Adolph Gobel, millionaire frankfurter, laid the foundation of his fortune in a little sausage-shop in Brooklyn, near a public school. He fostered a taste among the children for piping hot "pups." The rage spread to adjacent streets of learning. So far into the moneyed road did Herr Gobel travel that his son can afford to play around the waters of New York with a luxurious yacht.

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is "Phillips' Milk of Magnesia." It has been maintained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

Swine Judging Competition

Sponsored by Agricultural Department of the Canadian National Railways.

Robert Hornby and Joe McCollum, young farmers of Armstrong, will represent British Columbia in the Dominion Championship swine judging competition to be held under the auspices of the Agricultural Department of the Canadian National Railways, at the Royal Winter Fair, in Toronto, early in December.

They earned this honor by being awarded the "Provincial Championship" in the tests among the Canadian National Boys and Girls Swine Clubs of British Columbia. In the finals at Toronto, they will compete with teams from every other Province in Canada, the largest entry since the competition was inaugurated in 1925. Should they win, they will be presented with medals and will become the holders for one year of the trophy awarded by W. D. Robb, vice-president of the Canadian National Railways, and they will have the distinction of being the champion swine breeders and judges of Canada.

The Boys and Girls Swine Clubs were started in 1925, by W. D. Robb, and Dr. W. J. Black, Director of Colonization and Agriculture for the Canadian National Railways, for the purpose of encouraging mixed farming and improving the quality of swine. All boys and girls under twenty are eligible to form clubs, and the movement has grown from six clubs in the first year, to more than two hundred. Every province is now represented and the competitions can be regarded as truly Dominion-wide.

District competitions are held first and the district winners compete in a Provincial Championship test and the winners of the latter competition are given a free trip to the Royal Winter Fair at Toronto, and a chance to compete for the Dominion title. So far Ontario, Manitoba, and Saskatchewan have won the Robb Trophy, one team being two girls.

Recipes For This Week

MARMALADE GRIDDLE CAKES

(About 18 cakes)

- 2 cups flour.
- 1 tablespoon baking powder.
- 1 teaspoon salt.
- 3 tablespoons sugar.
- 1 egg.
- 1 1/2 cups milk.
- 6 tablespoons melted butter.
- Orange marmalade.

Extra sugar.

Mix and sift dry ingredients. Add beaten eggs and milk. Beat thoroughly and add butter. Drop by large spoonfuls on a hot greased griddle. When puffed full of bubbles and cooked around the edges turn and cook on the other side. Spread cakes with orange marmalade. Roll up like jelly rolls. Sprinkle with sugar and serve at once.

VANILLA RICE PUDDING

- 1 package vanilla junket.
- 1/2 cup maple sugar.
- 1 pint milk.
- 1 cup boiled rice.

Place rice in bottom of desert glasses, sprinkling maple sugar over it. Dissolve junket in lukewarm milk, and pour over rice. Let stand in a warm room until firm, then chill. Any left-overs of cereal, etc., may be used instead of the rice.

French Children Play At Aviation

Aviation has become so popular in France that children are having ground races in miniature airplanes, mounted on three wheels. At Baule, the popular bathing beach, many contests are being held on the sands. One of the planes was labelled "Paris-New York."

Great Britain spends more than \$200,000,000 a year on motor cars.

Gas Supply For Saskatchewan

Eagle Butte Oil Company, At Cypress Hills, May Solve Problem.

The prospect of a natural gas supply for the cities of Regina and Moose Jaw and for towns and villages extending westward as far as Maple Creek, has been brought measurably closer by the announcement of the Eagle Butte Oil Company to spend in a second well in the centre of the Cypress Hills gas field, about 230 miles west of Regina and close to the Alberta boundary line.

The development of the Cypress Hills gas field is being proceeded with in anticipation of marketing gas in Saskatchewan. According to the findings of government engineers it is believed that the Cypress Hills field offers the closest supply of gas which can be transported to this market. A pipe line from the Cypress Hills would reach the town of Maple Creek first, and then proceed to Moose Jaw and Regina, supplying all towns and cities along intervening routes.

The whole problem has been carefully examined by competent engineers and has been pronounced feasible. Independent engineers who have been retained by the City of Regina, after an exhaustive examination of all possible sources of supply, pronounce the operations of the Eagle Butte Oil Company, Limited, as the most likely to result in the development of an adequate supply of gas for the Saskatchewan market.—Free Press.

Flying Taxi Service Planned In England

Planes Being Constructed For Shilling-a-Mile Fleet

The first effort on a large scale to let loose a fleet of "flying taxicabs" on the highways of England is announced. It is learned that 100 DeSoutter-Cirrus sports coupe planes are now under construction at Croydon, the London airport, and that all are intended for taxi service as soon as they are completed.

The planes will be stationed at provincial cities and will be made available for rapid connection with the Continental air routes from London, or for transport between English cities and towns.

It is planned to run the planes at the passenger rate of one shilling (about 25 cents) a mile. The planes are about three or four seaters, with inclosed cabins.

Another interesting announcement concerning air travel came from the French Air Union, which said that its de Luxe London-Paris planes henceforth would make connections with the French air lines to North Africa. The new service brings Algiers within thirty hours of London.

Flew 11,500 Hours

Excellent Work Accomplished By Ontario Protective Air Patrol

To protect the forests of Ontario, one of the province's most valuable assets, the Ontario Government protective air patrol has this year flown 850,000 air miles or a total of 11,500 flying hours. This is 5,400 more hours than the total in 1928, and was done without injury to a single member of the personnel engaged or to any of the passengers carried in the planes.

The forest patrol service covered the vast areas of Northern Ontario, from Lake Superior to James Bay, and has many notable instances of credit in carrying relief to stranded expeditions and conveying injured or sick persons from outlying posts to hospitals.

Our Embattled Farmers

Through Organization Are Defying the Wheat Buyers of the Whole World

The embattled farmers of the western Canada wheat pool are defying the wheat buyers of the world markets. Millions of bushels for profit and not a cent for loss! If the Farm Board had more courage and vision, the American farmers would also be in the defence—and in the money a little later. It is a refreshing spectacle to see so many thousands of farmers, secure in their technical market position, calmly waiting for their turn to play.—Wall Street Magazine.

SUNDAY SCHOOL LESSON

NOVEMBER 24

THE HIGHER PATRIOTISM

Golden Text: "He made of one every nation of men to dwell on all the face of the earth."—Acts 17:26.
Lesson: The Book of Jonah.
Devotional Reading: Isaiah 55:1-7.

Explanations and Comments

A Great Command Disobeyed and Punished, 1.1 to 2.10.—The word of Jehovah came unto Jonah, the son of Amittai, telling him that he ought to go to Nineveh, that great city, and cry against it: Nineveh, the capital of Assyria, was on the Tigris River, 600 miles from the Gulf of Persia.

"The word of Jehovah came unto Jonah. How was there a message out of the sky? As he walked, or slept, or passed, these words came to him. These words came to him from silence into speech? Augustine heard a voice under the tree of Milan. Joan of Arc heard voices in the forest of Domremy. We, indeed, have heard no voices. But all of us together have not comprehended the boundaries of human experience. It is not wise, especially in these days of wonder in which it is our privilege to live, to deny the possibility of anything. What is impossible is only a matter of time."

"This, however, is true, that the word of the Lord which came to Jonah has come also to a great many other people besides Jonah. God is all the time speaking to men. Messages from on high have in all ages and in all places been received by men. Whenever we are conscious of an urgent voice which says to us, 'over and over, you ought! You ought!' it is likely that we are listening to the word of God.—George Hodgson.

Jonah disobeyed the voice. "Jonah says to himself the first time, 'I know how I'll be. After I've cried myself hoarse that I never will be destroyed, they'll begin to weep, and the Almighty'll change His mind and not destroy them. I'll say His way again folk report. He's of great kindness and slow to anger, but He should keep His word. He takes no thought upon me, and what a fool like I make of myself, crying that folk'll be destroyed when they write me. It seems as though the Almighty didn't ken His sin position to gang back on His word because folk commence to weep. But I'm His servant, and I ken my sin place; I'll not see Him place Himself in a wrong position, and I'll not see him place me in one either.'"—Sandy Scott's Bible Class.

Instead of obeying the voice, Jonah went in the opposite direction, the story tells us. At Joppa he found a board for Tarshish (the Phoenician colony on the southwest coast of Spain, then regarded as the very end of the earth), and went aboard.

God sent a violent storm; the sailors concluded that someone had offended his God, and they cast lots to discover the culprit. The lot fell upon Jonah, who acknowledged his sin and agreed to throw him into the sea. Finding the effort to row back to land unavailing, the sailors prayed for Jehovah, and then, when they saw the sea calm, they cast him overboard. The sea ceased from its raging and the sailors offered sacrifice to Jehovah, a great fish swallowed Jonah, and after three days, cast him upon dry land.

A Thing Of The Past

Senator Buchanan Says West Does Not Need Harvesters Excursions

Senator W. A. Buchanan, of Lethbridge, Alberta, has declared the arrival of a new era in the agricultural activities of the West. Harvesters' excursions, he says, are a thing of the past. Tractors and other such labor-saving devices are making the Western farmer independent of the extra help he has always needed when his grain is ready for cutting.

Though this may mean the loss to some men in the East of a few weeks' work in the year, the cessation of these trips is not entirely to be regretted. They had several features which made them somewhat undesirable. In the first place, many of the men who went West did so, not to work in the harvest, but to seek their fortunes in Western cities; and the result was that the West suffered each year through an influx of unemployed. Even of those who did go on the farms, many remained on the prairies after their work was done, and added to the overcrowded condition of the cities.

There is another encouraging feature revealed in the senator's remark. The West is coming into her own. Rich in natural resources, she has long been poor. The fact now is that there is no longer much need for extra workers shows that she is becoming independent, that she is gathering unto herself a farming population of sufficient to carry on.

On the whole, few will regret to see the passing of the excursions.

Centrally Heated

In a new settlement near Dulsberg, in Germany, although there are 442 houses, there is only one chimney. All the houses are supplied with heat and hot water from one house, which occupies the middle of the settlement and all cooking is done by gas. Lighting is electric.

Boredom is now regarded as being as detrimental to results in factories and workshops as is fatigue.

Wedding rings were made of agate and iron in ancient Roman times.

Chest Colds Need Direct Treatment

It is an obstinate cold indeed that can resist the direct double action of Vicks. Rubbed on the chest, it acts 2 ways at once:

- (1) Direct to air passages with its healing vapors released by body heat;
- (2) Direct, like a poultice, it "draws out" the soreness.

World Grain Exhibition

Event To Be Staged In Regina Expected To Be Largest Of Its Kind Ever Held

Official invitations are being sent by the Canadian Government to many countries to attend the World's Grain Exhibition and Conference to be held in Regina, August, 1932. This exhibition promised to be the largest of its kind ever held. About \$250,000 is to be offered in prize money.

Classes for wheat, oats, barley, rye and other grains and seeds will probably attract growers from all over the world for prizes offered for these classes run from \$500 to \$15,000. For example, hard red spring, hard red winter, soft red winter, and white winter wheat are in the \$15,000 prize class; as is also the class for white, medium or late oats. First prizes run as high as \$2,500, and there are from twenty-six to fifty prizes to a class.

The Conference to be held at the same time as the exhibition, will, it is expected, attract the world's greatest experts on agronomy, entomology, farm machinery, etc., who will make some very definite contribution to world knowledge on these important subjects.

Regina, where this promising attraction is to be held, is a very modern city of about 55,000 population, the capital of the province of Saskatchewan and situated in the centre of the greatest grain growing area in the world.

Old Family Album

Photographers Say This Relic Of Former Days Is Coming Back

The old family album, which furnishes the "moderns" with gleeful moments over the appearance of ancestors, is coming back—perhaps to do the same for future generations.

Photographers, meeting in convention here recently, declared bobbed hair and modern styles for women have restored the popularity of photographs, and hence the album is returning. One photographer pointed out that the American public spent \$36,000,000 more on photographs last year than in any year previous. Women's styles make them appear younger, he said, and they want a picture record.

The Turk's Clock

Watchers and clocks are rare in some parts of Turkey, but the natives have some ingenious modes of telling the time. One is by observing the eyes of a cat. Early in the morning and evening the pupils are round. At certain hours they are oval; at noon they are but a narrow slit.

The Canadian National Exhibition held at Toronto, Ontario, is now in its 51st year. The value of land and buildings connected with the exhibition is \$25,000,000.

The Singing Fool

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, is loved by Grace Farrell, the cigarette girl, but he doesn't know it. He marries Molly Winton, a ballad singer, and wins fame as a composer of popular songs. When their baby, Junior, is about two years old, Molly elopes with John Perry, Al's best friend. She and Perry take the child which Al adores and sail for France. Al, completely broken by his failure, disappears from Broadway and becomes a derelict. One day, as he wanders down a back street, he sees Grace Farrell on the opposite corner. He runs away and Grace hastens to Blackie Joe's club to tell him the news.

CHAPTER XXII

"I just saw someone we both know," Grace began, with a tired, rather set little smile. "Al Stone."

"No?" Blackie put down his cigar. "Where?"

Briefly Grace related the circumstances of their encounter.

Farmers Tell WHY they Clip Cows

A CERTAIN farmer wanted the facts about clipping cows, so he wrote to for names of those owning clipping machines. He wrote them:

"Now he himself is pleased with the Stewart Clipping Machine he sent us the letters which made him decide the clipping machine is a good investment. Here are some of them:

"I have been shipping to Marville, the Milk Plant regularly for 7 years and during that time I have never had a can of milk returned. I get cleaner milk and my cows faster to keep clean so if for that alone I would say a clipping machine is a good investment."

Billings Bridge

"I always clip mine in the fall. Some half up and others that are inclined to be woolly I clip them all over, as I find they do better and much easier to keep clean, and it saves dress and the bacteria count and I am sure we get more milk as well. I always get Score 1. I would not be without a clipping machine under any consideration."

"We have had a power clipper for years and would not do without one. It is a great help. The milk is easier to keep clean and pure. Keeping down live sure will produce more milk."

HOW TO CLIP COWS

Measure the principal source of bacteria, cannot afford to let milking time run off into the pail. Use a clean, sterilized, fork and tail is kept clipped short all winter.

Line seem to congregate along the spine, which explains why some farmers clip a stick with a fork tail to save.

Farmers who have warm stables and drinking water often usually clip their cows all over.

Buy a clipping machine and make more money from your cows—with less work. Stewart No. 1 Clipping Machine is easy to use and anyone can do a nice job with it. It is strong, sturdy, easy-running and will last for years.

Meanwhile, Al continued his wandering life, never dreaming that Grace was trying to find him. If he had known it, he would have stayed in his room all day to avoid being found. But instead he pursued his casual way, lolling on the docks, catting at the cheapest lunch counters.

After his disappearance he had read the papers carefully for news of Molly and Junior. One day a news dispatch from Paris caught his eye:

"Mrs. Al Stone, known to the Broadway stage as Molly Winton, is one of a number of American women who have filed suit for divorce in the French courts recently. Mrs. Stone alleges ex-

traordinary cruelty and desertion. It is understood that Mr. Stone, whose whereabouts are unknown, will not fight the case.

"Among the gossip of the boulevard it is said that as soon as Mrs. Stone's divorce is granted, she will marry John Perry, well known bon vivant of Broadway. The couple are seen to gether a great deal at the Riviera resorts, where Mrs. Stone's beauty and chic attire have attracted a great deal of favorable attention. On the beach she is frequently accompanied by her baby son, Junior Stone.

"Meanwhile Al Stone's old friends from Broadway are wondering what has become of the former successful song writer. At one time it was said that he, too, had come to France, but this was denied by those in the know."

Al had dropped the paper with a bitter smile. So Molly was charging him with cruelty and desertion! The terrible irony of the accusations dazed him for a moment. And Molly was preparing to marry Perry!

"On, well, it didn't matter; nothing mattered any more! Let her make any charges she wished to get her freedom! Yet the picture of Junior, on the Riviera beach with his mother, remained with Al for a few days. He wondered if Junior still chattered and laughed as he had in the old days and whether he remembered his daddy?"

Al looked down at his shabby clothes. He certainly wouldn't want Junior to see him as he appeared now—the personification of failure. No, Junior must never know what had become of his daddy. Al's pride was strong enough for him to make that decision.

After that Al still studied the newspaper for other items concerning his family, but nothing else appeared. Nor did Molly send any letters. Al had left word that his mail was to be forwarded care of an obscure East Side bank, where he had placed his money. But every time he called at the bank for additional money, and asked for letters, he found none from Molly. Letters from Marcus and all his old Broadway friends drifted in, but these he quickly tore up without opening them.

Recently he had ceased to read the papers or to ask for letters. His interest in life was dwindling, narrowing down to the smallest circle. Even his interest was passing rather than active—he did not really care about sleeping, dressing, eating, wandering through the streets. It was done simply through habit—his last hold on life. If that passed from him one of these days it meant dark oblivion for the man who had once been light-hearted Al Stone.

Seeing Grace on the street had proved a terribly disturbing shock to him. In running away he had followed of his first impulse—but afterward his conscience had bothered him. He knew Grace's feelings would be hurt. After all, Grace had been one of his best pals back in the old days at Blackie Joe's. He remembered her as she had looked then—a startled fawn of a child. She had certainly developed into a stunning girl.

A Wallled Arabian City

Sanaa, a town in the desert of Southwest Arabia, is surrounded by a thick wall of rubble and mud, some four miles about, with four principal gates and many turrets, mostly in ruins. Within this storied Arabian city are forty-eight mosques. In the neighborhood of the Grand Mosque, are the lapidaries who cut the beautiful Yemen stones of quartz and chrysochane known to the outside world.

Furnace Terrified Eskimo

Could Not Understand How the Heat Was Made

May Lee Davis, writing in North American Review, says: Eskimo Mul-puk had come to pay her first social call on me in that far Alaskan home I knew so many years ago. "How come?" queried Mul-puk, smugly closing to the register and pointing to the black grated hole in the floor. "How come hot? No see him fire. How come, please?"

"Now I feel that the complete magic of a hot air furnace could be better shown than explained, so we descended to our small cellar where an empty crude oil drum had been converted into a miniature furnace. In the dim light and the dented glow from the open draft, shadows flickered and the white asbestos-wrapped pipes, reaching out under the floor to our four small rooms above, stretched aloft in eerie gesture. The little woman caught at my hand in terror.

"Very big devil, him," she whispered. "How you talk him devil? How you make him breath hot?"

"You talk about 30 cords of wood to him, a winter! He's a hungry thing, but a good little devil." I laughed, reaching up and patting one of the twisted white arms. "See Mul-puk, good devil. If you feed him plenty wood, he makes plenty of hot breath upstairs. Warm us feet, good and plenty, upstairs."

But she was still clutching tightly to my hand as we went up the short steps.

The Experience Of Many

People Are Constantly Echoing Words Of Swedish Landladies

She is a humble Swedish landlady in the home of a Wall Street broker and she had the usual little nest egg of "life savings." Exactly how she learned to understand the financial page has not been revealed, but in the course of a few years she had the savings mounted to the tidy sum of \$35,000 and she had visions of Sweden and luxury. But they never knew when to stop. Ultimately, certain motor stocks slid sweetly down hill and took the \$35,000 with them.

That however, is not the high point of the story, which is far from being an uncommon one. What really makes it worth relating is the little gem of philosophy with which she closed the incident and which shall be quoted in her own words:

"It come so slow; it go so quick."

In the first season's operations which ended on April 30, 1923, this new co-operative organization handled 4,100,000 pounds of fish, out of a total catch of 14,500,000 pounds in Lake Winnipeg.

New Dance Floor

Savoy Hotel, London, England, Has Only One Of Its Kind In World

A dance floor that rises up to the level of the tops of the tables—at the touch of a button—was "opened" during the dinner and supper entertainments at the Savoy Hotel, London, England. It is said to be the only floor of its kind in the world. Measuring 44 feet by 26 feet, it rises without a creak in 30 seconds by means of hydraulic power. Thousands of gallons of water from the four artesian wells below the Savoy are used.

An official of the hotel said: "The inventor is an Englishman, W. J. Huggett, and he and our chief engineer, P. C. Pay, have been working on it for six months. It has cost over \$50,000, and has been constructed between 2 a.m. and 5 a.m. so as not to interfere with our guests' comfort. This enables all guests to see the cabaret without standing.

WHEN YOUR BABY CATCHES A COLD

In spite of all precautions little ones will take colds—especially during the changeable days of our Fall season. When the first symptoms appear—sneezing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They will rapidly break up the cold and prevent more serious complications.

Mothers who keep a box of Baby's Own Tablets in the house always feel safe. In what the first symptoms appear—sneezing, redness of the eyes, running nose—Baby's Own Tablets should be given at once. They are the direct result of a clogged condition of the bowels or sour stomach. They are absolutely safe—being guaranteed to contain no drug at all. They cannot sensibly do harm—they always do good.

Baby's Own Tablets are sold by all medicine dealers or will be sent by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Has Interesting History

Small Cinema Was Built For Use Of Royal Family

Across the way from the Royal riding school in the labyrinth of streets between Buckingham Palace and Victoria Station is a small and comparatively new cinema with an interesting history. It was built by Mr. E. C. Lascelles, a cousin of Lord Lascelles, for the use of members of the Royal Family. The cinema is on the site of an old ecclesiastical building and construction of a subterranean passage was commenced so that the cinema would be directly accessible from Buckingham Palace, but that idea was abandoned.

The first author to use a typewriter in the preparation of manuscript is believed to have been Mark Twain.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests pass away in the stools without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgment there when these powders are in operation. Nothing could be more thorough or desirable than their action.

The value of pearl shell raised during ten years off the northwestern shores of Australia was more than \$10,500,000.

Abatement Simpler

"B.U.D." or para-benzoyl-para-amino-benzoyl-amino naphthal 3:8 sodium sulphinate is the latest treatment for influenza, described by Dr. Raymond M. Pearce, in the British Medical Journal.

An Ailing CHILL

Are you prepared to render first aid and quick comfort to the moment your youngster has an upset of any sort? Could you do the right thing—immediately—though the emergency came without warning—perhaps tonight?

Castoria is a mother's standby at such times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation; to allay a feverish condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It is just as

"Blessed is the man whom Thou chastenest, O Lord, and teachest him out of Thy law."—Psalm xciv. 12.

Do not cheat thy heart, and tell her, "Grief will pass away; Hope for fairer things tomorrow, And forget today." Tell her, if you will, that sorrow, Need not come in vain; Tell her that, though she might her Fair outweigh the pain.

—Adelaide Anne Proctor.

Little Helps For This Week

It would be a poor result of all our anguish and our wrestling, if we won nothing but our old selves at the end of it; if we could return to the same blind loves, the same self-conceit, the same light thoughts of human suffering, the same frivolous gossip over blighted human lives, the same feeble sense of the unknown toward which we have sent forth irrepressible cries in our loneliness. Let us rather be thankful that our sorrow lives in us as an indestructible force, only changing its form as forces do, and passing from pain into sympathy.—George Eliot.

An Oil That Is Famous—Though

Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the home of that famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far ahead enough to attest its excellence, for in all these countries it is on sale and in demand.

Newest Use For Airplane

Traced Blackmailer By Following Carrier Pigeon He Sent Out

Aerial photography recently thwarted an attempt at blackmail, in Germany. A wealthy man received a package containing a carrier pigeon and a letter, which stated that if he did not forward a large sum of money by the pigeon within a given time, he would meet violent death. The pigeon was released and followed by an airplane, and an aerial photograph taken of the place where the bird landed. The house of the offender was easily identified. He was an unemployed miner, from one of the intended victim's mines.

Castoria

Castoria is a mother's standby at such times. There is nothing like it in emergencies, and nothing better for everyday use. For a sudden attack of colic, or the gentle relief of constipation; to allay a feverish condition, or to soothe a fretful baby that can't sleep. This pure vegetable preparation is always ready to ease an ailing youngster. It is just as

harmless as the recipe on the wrapper reads. If you see Chat. H. Fletcher's signature, it is genuine Castoria. It is harmless to the smallest infant; doctors will tell you so. You can get from the recipe on the wrapper how mild it is, and how good for little stomachs. But continue with Castoria until a child is grown.

Mr. J. R. Gresham left here Sunday night for Okotoks, where he enters upon a position with the federal revenue department.

The Ladies' Aid of Bellevue United church desire through The Enterprise to thank the many friends and patrons who helped make their sale a success.

The request of a local police officer to an individual who had met a few friends and was bidding them farewell—that he "should try to walk straightly" was not altogether necessary. During the past couple of weeks, both at Calgary and Edmonton, we had occasion to notice parties who had "enjoyed" themselves to such an extent that they were unable to even stand upright—to say nothing of walking—and the police officers, in proper spirit passed them by, unheard and unseen (?). Taking a drink does not always make a man a criminal.

Death uses every available means to hurry the departed. Recently a man was killed by being run over by a hearse.

Flapper ideals aren't new. In Egypt, four hundred years before Christ, the word "pet" meant heaven. Oh, hell!

An exchange undertakes to remind hunters that a moving object that appears to be smoking a pipe isn't a deer.

Since the introduction of talking into the movies we have now got to be content with what we hear of our neighbors on the street corners.

A revival in the eel grass harvesting is being experienced in Nova Scotia. Eel grass has proven to be one of the best materials for insulation.

G. B. Armstrong, mayor of Merritt, B.C., died from suffocation when his home caught fire on Monday. He was a brother of Joseph Armstrong, of Pincher Creek.

Big scare headlines in the daily press last week announced that a man had been found chained to a post in Ireland. That's no worse than being tied to a woman in Canada.

The amorphophallus, a summatrium plant, produces the largest flower in the world, the arms of an ordinary man being able to reach only half way round its circumference.

To properly conform to the law respecting big game hunting in Alberta, a hunter is obliged to have his white suit laundered after passing a fire-charred tree.

Dr. C. G. Reinhorn has returned to Bellevue from a two weeks' vacation, spent in northern Alberta. During his absence, Dr. Reinhorn's practice was cared for by Dr. Hony.

The tea and sale of home cooking, etc., held in the Lodge hall yesterday by the ladies of Greenhill Temple of Pythian Sisters, was well patronized. In the evening a whist drive followed.

Mussolini has issued an edict to the effect that the husband is the head of the family. There are wives who will not object to the husband being the head, so long as they have the privilege of putting the axes and axes in it.—Toronto Star.

We offer you the facilities of a modern printing plant, equipped with the latest type faces and machinery, and we are able to give you the finest workmanship and prompt dependable service. We can serve you and serve you well.—The Blairmore Enterprise.

Due to general increase in postal business, Canada has, in the past three years, overcome the adverse effect on postal revenue of the return to two-cent postage. For the fiscal year ended the 31st of March, 1926, (that is, prior to the reversion to two-cent postage) net postal revenue was \$31,025,000.
